OSSO BUCCO RANGE

DAB01

This machine allows the trays storage and supply. Many tray types are recognized by the DAB01. Several stacks can be stored in the machine reserve. Machine on small castors.

DAB01 can supply until 55 trays per minute. Maximum loading of 600 trays.

The productivity information is only indicative. A study can be made with your specifications.presse doubl

This material is in conformity with the following directives and bills:
Food contact: EC1935/2004,
Good manufacturing practice: EC2023/2006,
Machines: EC2006/42, CEM : EC 2004/108

Possibility to connect the tray dispenser to your packing machine/ conveyor.

- Flexible machine with several settings which allow to adapt different sizes of trays.
- Adjustable cadence for the tray's distribution.
- Possibility for this machine to be controled by a pedal or through the screen touch.
- The cut product falls down into a EUROPEAN type tray without the necessity to use conveyor belt.
- Easy to clean thanks to the design made according to agri-food requirements.
