SQUARE / RECTANGULAR KEBABS

# ESA01

Semi-automatic machine for the production of square or rectangular kebabs. Up to 250 kg/h.

Manual introduction of the skewers into the skewer tube assembly.

Automatic skewering.

Cutting is manual with a specific knife.

**Productivity: about 40kg/h per person with one skewer tube assembly and one mould.**

**2 to 3 people can produce up to 250 kg/hour with several skewer tube assemblies and moulds.**

**The productivity depends on the quantity of staff, the organization of the line, the tools and the technical features of the kebabs to be produced.**

**This material is in conformity with the following directives and bills:**

Food contact: EC1935/2004,

Good manufacturing practice: EC2023/2006,

Machines: EC2006/42, CEM : EC 2004/108
