CUBES RANGE / BACON / STRIPES / STAMPS

# SUPREME EVOLUTION

Machine with automatic loader allows to cut cubes and stripes of ham (pork and turkey) from a raw block introduced into a rectangular and adapted cutting chamber. Cutting of entire bars of ham. The over-one-meter long meat block is pushed through a device equipped with 2 alternative cuttings and a rotative cutting. This machine offers a 3-dimensions cutting for fragile products.

**Productivity:**  
up to 2 600 kg of ham/  
hour in cubes of section  
of 8 mm.  
**Loading capacity:**  
the dimensions of the  
cutting chamber are  
defined according to the  
dimensions of the raw  
material.

**The productivity  
information is only  
indicative.  
A study can be  
made with your  
specifications.**

**This material is in conformity with the following directives and bills:**  
Food contact: EC1935/2004,  
Good manufacturing practice: EC2023/2006,  
Machines: EC2006/42, CEM : EC 2004/108

This machine does not require  
staff to load the products.

- The cutting machine Supreme Evolution offers hydraulic power and reliability combined to an electronic control.
- The machine is easy to clean and takes into account the constraints of the food industry.
- A touch screen makes the communication easier between the operator and the machine. The screen includes a self-diagnostic system displaying a picture of the faulty component for example.
