SQUARE / RECTANGULAR KEBABS

# TPV01

Machine which allows to skewer ingredients onto skewers previously positioned onto a belt. It is possible to skewer many ingredients such as meat, fish, vegetables, fruits and any other processed product.

**Productivity can be defined according to the complexity of the kebab to produce.**

**This material is in conformity with the following directives and bills:**  
Food contact: EC1935/2004,  
Good manufacturing practice: EC2023/2006,  
Machines: EC2006/42, CEM : EC 2004/108

Working station to optimize the movements and moving of the operators.

- Ingredients are prepared and cut, they are introduced manually onto the skewers.
- The kebab produced have a home-made looking.
- The flexibility of the machine allows the production of a wide range of products.
- Adjustable speed.
- The machine is easy to clean and takes into account the constraints of the food industry.
